**This product is a kit or a multipart product which consists of multiple, independently packaged components. A Safety Data Sheet (SDS), Article Information Sheet (AIS), or Article Information Letter (AIL) for each of these components is included. Please do not separate the component documents from this cover page. The document numbers for components of this product are:**

22-9599-6, 22-9605-1

**DISCLAIMER:** The information in this Safety Data Sheet (SDS) is believed to be correct as of the date issued. 3M MAKES NO WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR COURSE OF PERFORMANCE OR USAGE OF TRADE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's method of use or application. Given the variety of factors that can affect the use and application of a 3M product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for user's method of use or application.

3M provides information in electronic form as a service to its customers. Due to the remote possibility that electronic transfer may have resulted in errors, omissions or alterations in this information, 3M makes no representations as to its completeness or accuracy. In addition, information obtained from a database may not be as current as the information in the SDS available directly from 3M

3M USA SDSs are available at [www.3M.com](http://www.3M.com)

| <b>Issue Date:</b>     | 07/26/18  | <b>Supersedes Date:</b> | 04/02/15 |

### SECTION 1: Identification

#### 1.1. Product identifier

Swabbing Solution

#### Product Identification Numbers

| ID Number      | UPC | ID Number | UPC |
|----------------|-----|-----------|-----|
| GH-6205-2236-3 |     |           |     |
| 4010024077     |     |           |     |

#### 1.2. Recommended use and restrictions on use

##### Recommended use

Swabbing solution is used to moisten the swab bud in the 3M Clean-Trace Surface ATP test and the 3M Clean-Trace Clinical ATP test., Intermediate

#### 1.3. Supplier's details

|                      |   |
|----------------------|---|
| <b>MANUFACTURER:</b> | 3M  |
| <b>DIVISION:</b>     | 3M United Kingdom<br>Food Safety Department |
| <b>ADDRESS:</b>      | 3M Center, St. Paul, MN 55144-1000, USA     |
| <b>Telephone:</b>    | 1-888-3M HELPS (1-888-364-3577)             |

#### 1.4. Emergency telephone number

1-800-364-3577 or (651) 737-6501 (24 hours)

### SECTION 2: Hazard identification

#### 2.1. Hazard classification

Not classified as hazardous according to OSHA Hazard Communication Standard, 29 CFR 1910.1200.

#### 2.2. Label elements

##### Signal word

Not applicable.

##### Symbols

Not applicable.

**Pictograms**

Not applicable.

**SECTION 3: Composition/information on ingredients**

| Ingredient                | C.A.S. No. | % by Wt  |
|---------------------------|------------|----------|
| WATER                     | 7732-18-5  | 80 - 100 |
| HUMECTANT                 | 57-55-6    | 3 - 7    |
| CHLORHEXIDINE DIGLUCONATE | 18472-51-0 | < 0.1    |

**SECTION 4: First aid measures**

**4.1. Description of first aid measures**

**Inhalation:**

No need for first aid is anticipated.

**Skin Contact:**

Wash with soap and water. If you are concerned, get medical advice.

**Eye Contact:**

Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

**If Swallowed:**

No need for first aid is anticipated.

**4.2. Most important symptoms and effects, both acute and delayed**

See Section 11.1. Information on toxicological effects.

**4.3. Indication of any immediate medical attention and special treatment required**

Not applicable

**SECTION 5: Fire-fighting measures**

**5.1. Suitable extinguishing media**

Material will not burn. Use a fire fighting agent suitable for the surrounding fire.

**5.2. Special hazards arising from the substance or mixture**

None inherent in this product.

**5.3. Special protective actions for fire-fighters**

No special protective actions for fire-fighters are anticipated.

**SECTION 6: Accidental release measures**

**6.1. Personal precautions, protective equipment and emergency procedures**

Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

**6.2. Environmental precautions**

Avoid release to the environment.

**6.3. Methods and material for containment and cleaning up**

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with water. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

**SECTION 7: Handling and storage**

**7.1. Precautions for safe handling**

Avoid release to the environment.

**7.2. Conditions for safe storage including any incompatibilities**

Store away from heat.

**SECTION 8: Exposure controls/personal protection**

**8.1. Control parameters**

**Occupational exposure limits**

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient | C.A.S. No. | Agency | Limit type               | Additional Comments |
|------------|------------|--------|--------------------------|---------------------|
| HUMECTANT  | 57-55-6    | AIHA   | TWA(as aerosol):10 mg/m3 |                     |

ACGIH : American Conference of Governmental Industrial Hygienists

AIHA : American Industrial Hygiene Association

CMRG : Chemical Manufacturer's Recommended Guidelines

OSHA : United States Department of Labor - Occupational Safety and Health Administration

TWA: Time-Weighted-Average

STEL: Short Term Exposure Limit

CEIL: Ceiling

**8.2. Exposure controls**

**8.2.1. Engineering controls**

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment.

**8.2.2. Personal protective equipment (PPE)**

**Eye/face protection**

Eye protection not required.

**Skin/hand protection**

No chemical protective gloves are required.

**Respiratory protection**

Respiratory protection is not required.

**SECTION 9: Physical and chemical properties****9.1. Information on basic physical and chemical properties**

|  |                          |
|--|--------------------------|
| <b>General Physical Form:</b>                  | Liquid                   |

| <b>Molecular weight</b>                        | <i>No Data Available</i> |
| <b>Volatile Organic Compounds</b>              | <i>No Data Available</i> |

**SECTION 10: Stability and reactivity****10.1. Reactivity**

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section.

**10.2. Chemical stability**

Stable.

**10.3. Possibility of hazardous reactions**

Hazardous polymerization will not occur.

**10.4. Conditions to avoid**

Heat

**10.5. Incompatible materials**

None known.

**10.6. Hazardous decomposition products**

Substance  
None known.

Condition  
Not Specified

**SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be

reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1. Information on Toxicological effects

#### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### Inhalation:

No known health effects.

#### Skin Contact:

Contact with the skin during product use is not expected to result in significant irritation.

#### Eye Contact:

Contact with the eyes during product use is not expected to result in significant irritation.

#### Ingestion:

No known health effects.

#### Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

#### Acute Toxicity

| Name                      | Route     | Species | Value  |
|---------------------------|-----------|---------|--|
| Overall product           | Ingestion |         | No data available; calculated ATE >5,000 mg/kg |
| HUMECTANT                 | Dermal    | Rabbit  | LD50 20,800 mg/kg                              |
| HUMECTANT                 | Ingestion | Rat     | LD50 22,000 mg/kg                              |
| CHLORHEXIDINE DIGLUCONATE | Dermal    | Rabbit  | LD50 > 5,000 mg/kg                             |
| CHLORHEXIDINE DIGLUCONATE | Ingestion | Rat     | LD50 2,000 mg/kg                               |

ATE = acute toxicity estimate

#### Skin Corrosion/Irritation

| Name                      | Species | Value                     |
|---------------------------|---------|---------------------------|
| HUMECTANT                 | Rabbit  | No significant irritation |
| CHLORHEXIDINE DIGLUCONATE | Rabbit  | No significant irritation |

#### Serious Eye Damage/Irritation

| Name                      | Species | Value                     |
|---------------------------|---------|---------------------------|
| HUMECTANT                 | Rabbit  | No significant irritation |
| CHLORHEXIDINE DIGLUCONATE | Rabbit  | Corrosive                 |

#### Skin Sensitization

| Name                      | Species          | Value  |
|---------------------------|------------------|--|
| HUMECTANT                 | Human            | Not classified   |
| CHLORHEXIDINE DIGLUCONATE | Human and animal | Some positive data exist, but the data are not sufficient for classification |

#### Respiratory Sensitization

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Germ Cell Mutagenicity**

| Name                      | Route    | Value         |
|---------------------------|----------|---------------|
| HUMECTANT                 | In Vitro | Not mutagenic |
| HUMECTANT                 | In vivo  | Not mutagenic |
| CHLORHEXIDINE DIGLUCONATE | In Vitro | Not mutagenic |
| CHLORHEXIDINE DIGLUCONATE | In vivo  | Not mutagenic |

**Carcinogenicity**

| Name                      | Route     | Species                 | Value            |
|---------------------------|-----------|-------------------------|------------------|
| HUMECTANT                 | Dermal    | Mouse                   | Not carcinogenic |
| HUMECTANT                 | Ingestion | Multiple animal species | Not carcinogenic |
| CHLORHEXIDINE DIGLUCONATE | Ingestion | Multiple animal species | Not carcinogenic |

**Reproductive Toxicity****Reproductive and/or Developmental Effects**

| Name                      | Route     | Value                                  | Species                 | Test Result            | Exposure Duration    |
|---------------------------|-----------|--|-------------------------|------------------------|----------------------|
| HUMECTANT                 | Ingestion | Not classified for female reproduction | Mouse                   | NOAEL 10,100 mg/kg/day | 2 generation         |
| HUMECTANT                 | Ingestion | Not classified for male reproduction   | Mouse                   | NOAEL 10,100 mg/kg/day | 2 generation         |
| HUMECTANT                 | Ingestion | Not classified for development         | Multiple animal species | NOAEL 1,230 mg/kg/day  | during organogenesis |
| CHLORHEXIDINE DIGLUCONATE | Ingestion | Not classified for development         | Rat                     | NOAEL 30 mg/kg/day     | during gestation     |

**Target Organ(s)****Specific Target Organ Toxicity - single exposure**

| Name                      | Route      | Target Organ(s)                   | Value  | Species                | Test Result         | Exposure Duration |
|---------------------------|------------|-----------------------------------|--|------------------------|---------------------|-------------------|
| HUMECTANT                 | Ingestion  | central nervous system depression | Not classified   | Human and animal       | NOAEL Not available |                   |
| CHLORHEXIDINE DIGLUCONATE | Inhalation | respiratory irritation            | Some positive data exist, but the data are not sufficient for classification | similar health hazards | NOAEL Not available |                   |

**Specific Target Organ Toxicity - repeated exposure**

| Name                      | Route     | Target Organ(s)                              | Value  | Species                 | Test Result           | Exposure Duration |
|---------------------------|-----------|--|--|-------------------------|-----------------------|-------------------|
| HUMECTANT                 | Ingestion | hematopoietic system                         | Not classified   | Multiple animal species | NOAEL 1,370 mg/kg/day | 117 days          |
| HUMECTANT                 | Ingestion | kidney and/or bladder                        | Not classified   | Dog                     | NOAEL 5,000 mg/kg/day | 104 weeks         |
| CHLORHEXIDINE DIGLUCONATE | Ingestion | liver  | Some positive data exist, but the data are not sufficient for classification | Dog                     | NOAEL 0.89 mg/kg/day  | 1 years           |
| CHLORHEXIDINE DIGLUCONATE | Ingestion | immune system                                | Not classified   | Rabbit                  | NOAEL 71 mg/kg/day    | 2 years           |
| CHLORHEXIDINE DIGLUCONATE | Ingestion | hematopoietic system   kidney and/or bladder | Not classified   | Rat                     | NOAEL 71 mg/kg/day    | 2 years           |

**Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

**SECTION 12: Ecological information**

**Ecotoxicological information**

Please contact the address or phone number listed on the first page of the SDS for additional ecotoxicological information on this material and/or its components.

**Chemical fate information**

Please contact the address or phone number listed on the first page of the SDS for additional chemical fate information on this material and/or its components.

**SECTION 13: Disposal considerations**

**13.1. Disposal methods**

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

**EPA Hazardous Waste Number (RCRA):** Not regulated

**SECTION 14: Transport Information**

For Transport Information, please visit <http://3M.com/Transportinfo> or call 1-800-364-3577 or 651-737-6501.

**SECTION 15: Regulatory information**

**15.1. US Federal Regulations**

Contact 3M for more information.

**EPCRA 311/312 Hazard Classifications:**

**Physical Hazards**

Not applicable

**Health Hazards**

Not applicable

**15.2. State Regulations**

Contact 3M for more information.

**15.3. Chemical Inventories**

The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification

and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information.

The components of this product are in compliance with the new substance notification requirements of CEPA.

The components of this material are in compliance with the China "Measures on Environmental Management of New Chemical Substance". Certain restrictions may apply. Contact the selling division for additional information.

The components of this material are in compliance with the provisions of the Korean Toxic Chemical Control Law. Certain restrictions may apply. Contact the selling division for additional information.

The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

Contact 3M for more information.

#### 15.4. International Regulations

Contact 3M for more information.

This SDS has been prepared to meet the U.S. OSHA Hazard Communication Standard, 29 CFR 1910.1200.

## SECTION 16: Other information

### NFPA Hazard Classification

Health: 0 Flammability: 0 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

| <b>Document Group:</b> | 22-9599-6 | <b>Version Number:</b>  | 3.00     |
| <b>Issue Date:</b>     | 04/02/15  | <b>Supersedes Date:</b> | 09/27/10 |

### SECTION 1: Identification

#### 1.1. Product identifier

Liquid Stable Enzyme

#### Product Identification Numbers

LE-B100-0341-2, GH-6205-0847-9

#### 1.2. Recommended use and restrictions on use

##### Recommended use

Intermediate

#### 1.3. Supplier's details

|                      |   |
|----------------------|---|
| <b>MANUFACTURER:</b> | 3M                                      |
| <b>DIVISION:</b>     | Food Safety Department                  |
| <b>ADDRESS:</b>      | 3M Center, St. Paul, MN 55144-1000, USA |
| <b>Telephone:</b>    | 1-888-3M HELPS (1-888-364-3577)         |

#### 1.4. Emergency telephone number

1-800-364-3577 or (651) 737-6501 (24 hours)

### SECTION 2: Hazard identification

#### 2.1. Hazard classification

Not classified as hazardous according to OSHA Hazard Communication Standard, 29 CFR 1910.1200.

#### 2.2. Label elements

##### Signal word

Not applicable.

##### Symbols

Not applicable.

##### Pictograms

Not applicable.

#### 2.3. Hazards not otherwise classified

None.

### SECTION 3: Composition/information on ingredients

| Ingredient               | C.A.S. No. | % by Wt |
|--------------------------|------------|---------|
| Water                    | 7732-18-5  | 70 - 80 |
| Non-hazardous components | Mixture    | 15 - 25 |
| Sodium azide             | 26628-22-8 | < 0.1   |

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

**Inhalation:**

No need for first aid is anticipated.

**Skin Contact:**

Wash with soap and water. If you are concerned, get medical advice.

**Eye Contact:**

Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

**If Swallowed:**

Rinse mouth. If you feel unwell, get medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

See Section 11.1. Information on toxicological effects.

#### 4.3. Indication of any immediate medical attention and special treatment required

Not applicable

### SECTION 5: Fire-fighting measures

#### 5.1. Suitable extinguishing media

Material will not burn.

#### 5.2. Special hazards arising from the substance or mixture

None inherent in this product.

#### 5.3. Special protective actions for fire-fighters

No special protective actions for fire-fighters are anticipated.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Ventilate the area with fresh air. Observe precautions from other sections.

#### 6.2. Environmental precautions

Avoid release to the environment.

#### 6.3. Methods and material for containment and cleaning up

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Dispose of collected

material as soon as possible.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Do not eat, drink or smoke when using this product. Wash thoroughly after handling.

### 7.2. Conditions for safe storage including any incompatibilities

No special storage requirements.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### Occupational exposure limits

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient   | C.A.S. No. | Agency | Limit type   | Additional Comments            |
|--------------|------------|--------|--|--------------------------------|
| Sodium azide | 26628-22-8 | ACGIH  | CEIL(as hydrazoic acid vapor):0.11 ppm;CEIL(as NaN <sub>3</sub> ):0.29 mg/m <sup>3</sup> | A4: Not class. as human carcin |

ACGIH : American Conference of Governmental Industrial Hygienists

AIHA : American Industrial Hygiene Association

CMRG : Chemical Manufacturer's Recommended Guidelines

OSHA : United States Department of Labor - Occupational Safety and Health Administration

TWA: Time-Weighted-Average

STEL: Short Term Exposure Limit

CEIL: Ceiling

### 8.2. Exposure controls

#### 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment.

#### 8.2.2. Personal protective equipment (PPE)

##### Eye/face protection

Eye protection not required.

##### Skin/hand protection

No chemical protective gloves are required.

##### Respiratory protection

Respiratory protection is not required.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                               |                              |
|-------------------------------|------------------------------|
| <b>General Physical Form:</b> | Liquid                       |
| <b>Odor, Color, Grade:</b>    | Clear to light yellow liquid |
| <b>Odor threshold</b>         | <i>No Data Available</i>     |
| <b>pH</b>                     | <i>No Data Available</i>     |

|   |                         |
|---|-------------------------|
| Melting point                           | No Data Available       |
| Boiling Point                           | No Data Available       |
| Flash Point                             | Not Applicable          |
| Evaporation rate                        | No Data Available       |
| Flammability (solid, gas)               | Not Applicable          |
| Flammable Limits(LEL)                   | No Data Available       |
| Flammable Limits(UEL)                   | No Data Available       |
| Vapor Pressure                          | No Data Available       |
| Vapor Density                           | No Data Available       |
| Density                                 | No Data Available       |
| Specific Gravity                        | >= 1 [Ref Std: WATER=1] |
| Solubility In Water                     | No Data Available       |
| Solubility- non-water                   | No Data Available       |
| Partition coefficient: n-octanol/ water | No Data Available       |
| Autoignition temperature                | No Data Available       |
| Decomposition temperature               | No Data Available       |
| Viscosity                               | No Data Available       |
| Hazardous Air Pollutants                | No Data Available       |
| Volatile Organic Compounds              | No Data Available       |
| Percent volatile                        | No Data Available       |
| VOC Less H2O & Exempt Solvents          | No Data Available       |

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

This material is considered to be non reactive under normal use conditions.

### 10.2. Chemical stability

Stable.

### 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

### 10.4. Conditions to avoid

None known.

### 10.5. Incompatible materials

None known.

### 10.6. Hazardous decomposition products

| <u>Substance</u>   | <u>Condition</u> |
|--------------------|------------------|
| Carbon monoxide    | Not Specified    |
| Carbon dioxide     | Not Specified    |
| Oxides of Nitrogen | Not Specified    |

## SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1. Information on Toxicological effects

#### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### Inhalation:

No known health effects.

#### Skin Contact:

Contact with the skin during product use is not expected to result in significant irritation.

#### Eye Contact:

Contact with the eyes during product use is not expected to result in significant irritation.

#### Ingestion:

Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

#### Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

#### Acute Toxicity

| Name                     | Route     | Species                | Value   |
|--------------------------|-----------|------------------------|---|
| Overall product          | Ingestion |                        | No data available; calculated ATE > 5,000 mg/kg |
| Non-hazardous components | Dermal    | Professional judgement | LD50 estimated to be > 5,000 mg/kg              |
| Non-hazardous components | Ingestion | Rat                    | LD50 15,900 mg/kg                               |
| Sodium azide             | Dermal    | Rabbit                 | LD50 20 mg/kg                                   |
| Sodium azide             | Ingestion | Rat                    | LD50 42 mg/kg                                   |

ATE = acute toxicity estimate

#### Skin Corrosion/Irritation

| Name         | Species       | Value         |
|--------------|---------------|---------------|
| Sodium azide | Not available | Mild irritant |

#### Serious Eye Damage/Irritation

| Name         | Species       | Value             |
|--------------|---------------|-------------------|
| Sodium azide | Not available | Moderate irritant |

#### Skin Sensitization

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### Respiratory Sensitization

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### Germ Cell Mutagenicity

| Name         | Route    | Value  |
|--------------|----------|--|
| Sodium azide | In Vitro | Some positive data exist, but the data are not sufficient for classification |

#### Carcinogenicity

| Name         | Route     | Species | Value            |
|--------------|-----------|---------|------------------|
| Sodium azide | Ingestion | Rat     | Not carcinogenic |

### Reproductive Toxicity

#### Reproductive and/or Developmental Effects

| Name         | Route     | Value  | Species | Test Result        | Exposure Duration |
|--------------|-----------|--|---------|--------------------|-------------------|
| Sodium azide | Ingestion | Not toxic to female reproduction   | Rat     | NOAEL 10 mg/kg/day | 103 weeks         |
| Sodium azide | Ingestion | Not toxic to male reproduction   | Rat     | NOAEL 10 mg/kg/day | 103 weeks         |
| Sodium azide | Ingestion | Some positive developmental data exist, but the data are not sufficient for classification | Rat     | NOAEL 10 mg/kg/day | during gestation  |

### Lactation

| Name         | Route     | Species | Value                                      |
|--------------|-----------|---------|--|
| Sodium azide | Ingestion | Rat     | Does not cause effects on or via lactation |

### Target Organ(s)

#### Specific Target Organ Toxicity - single exposure

| Name         | Route      | Target Organ(s) | Value                   | Species | Test Result | Exposure Duration      |
|--------------|------------|-----------------|-------------------------|---------|-------------|------------------------|
| Sodium azide | Inhalation | vascular system | Causes damage to organs | Human   | NOAEL NA    | occupational exposure  |
| Sodium azide | Ingestion  | vascular system | Causes damage to organs | Human   | NOAEL NA    | poisoning and/or abuse |

#### Specific Target Organ Toxicity - repeated exposure

| Name         | Route     | Target Organ(s)  | Value  | Species | Test Result        | Exposure Duration |
|--------------|-----------|--|--|---------|--------------------|-------------------|
| Sodium azide | Ingestion | vascular system  | Causes damage to organs through prolonged or repeated exposure               | Human   | NOAEL NA           | 2.5 years         |
| Sodium azide | Ingestion | central nervous system   | May cause damage to organs through prolonged or repeated exposure            | Rat     | LOAEL 5 mg/kg/day  | 103 weeks         |
| Sodium azide | Ingestion | liver   respiratory system   | Some positive data exist, but the data are not sufficient for classification | Rat     | NOAEL 10 mg/kg/day | 103 weeks         |
| Sodium azide | Ingestion | heart   skin   endocrine system   bone, teeth, nails, and/or hair   hematopoietic system   immune system   muscles   kidney and/or bladder | All data are negative  | Rat     | NOAEL 10 mg/kg/day | 103 weeks         |

### Aspiration Hazard

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

## SECTION 12: Ecological information

### Ecotoxicological information

Please contact the address or phone number listed on the first page of the SDS for additional ecotoxicological information on this material and/or its components.

### Chemical fate information

Please contact the address or phone number listed on the first page of the SDS for additional chemical fate information on this material and/or its components.

## SECTION 13: Disposal considerations

### 13.1. Disposal methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Prior to disposal, consult all applicable authorities and regulations to insure proper classification. Dispose of waste product in a permitted industrial waste facility. If no other disposal options are available, waste product may be placed in a landfill properly designed for industrial waste. Empty and clean product containers may be disposed as non-hazardous waste. Consult your specific regulations and service providers to determine available options and requirements.

**EPA Hazardous Waste Number (RCRA):** Not regulated

## SECTION 14: Transport Information

For Transport Information, please visit <http://3M.com/Transportinfo> or call 1-800-364-3577 or 651-737-6501.

## SECTION 15: Regulatory information

### 15.1. US Federal Regulations

Contact 3M for more information.

#### 311/312 Hazard Categories:

Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No Immediate Hazard - No Delayed Hazard - No

### 15.2. State Regulations

Contact 3M for more information.

### 15.3. Chemical Inventories

The components of this product are in compliance with the chemical notification requirements of TSCA.

Contact 3M for more information.

### 15.4. International Regulations

Contact 3M for more information.

This SDS has been prepared to meet the U.S. OSHA Hazard Communication Standard, 29 CFR 1910.1200.

## SECTION 16: Other information

### NFPA Hazard Classification

Health: 0 Flammability: 0 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.
